Misses Sallie R. Ray and Georgie Hunter, were with relatives and friends in Stanford Monday and Tuesday. Raymond Ray visited relatives in Kirksville, last week.

Joseph Simpson was confined to his room last week, but is able to be out again. Mrs. W. G. Jones is on the sick list. An infant son of Thompson Hill is quite sick with pneumonia.

Your type in last week's issue had it, "A mad dog belonging to W. G. Jones showed some signs of hydrophobia," when your correspondent in writing the item left out the word mad.

Mrs. Herol Ray has in her possession a chicken trough made by her father from a sand stone rock 60 years ago, when he was a small boy.

One of our citizens, who has the reputation of being a fine marksman, went hunting a few days ago. He had not proceeded very far when he espied two coons up a tree lying side by side, fast asleep, both in the same position. Getting in front of them, took the ball ranging down through the heart, causing it to instantly roll out of the tree, he reloaded his rifle, which was of the old fashioned muzzle loading kind, took aim at the other coon which had in the mean-time slept quietly on, not the least disturbed in the first killing, nor in the preparation being made for the next, so the second coon was killed in precisely the same way as the first, (through the nose and through the heart). When closely questioned on the subject the man said he had evidence to prove the truthfulness of this story. Your correspondent has possession of one of the coon hides which will make a handsome rug.

We are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventive of pneumonia, consumption and other serious lung troubles that follow neglected colds. Stormes' Drug Store. 1m

PREACHERSVILLE.

Blood Poison.

Contagious Blood Poison has been appropriately called the curse of mankind. It is the one disease that physicians cannot cure; their mercurial and potash remedies only bottle up the poison in the system, to surely break forth in a more virulent form, resulting in a total wreck of the system.

Mr. Frank B. Martin, a prominent jeweler at 926 Pennsylvania Ave., Washington, D.C., says:

"I was for a long time under treatment of two of the best physicians of this city, for a severe case of blood poison, but my condition grew worse all the while, notwithstanding the fact that they charged me three hundred dollars."

"My mouth was filled with eating sores, my tongue was almost eaten away, so that for three months I was unable to taste any solid food. My hair was coming out rapidly, and I was in a horrible fix. I had tried various treatments, and was nearly discouraged, when a friend recommended S.S.S. After I had taken four bottles, I began to get better, and when I had finished eighteen bottles, I was cured sound and well, my skin was without a blemish, and I have had no return of the disease. S.S.S. saved me from a life of misery."

S.S.S. (guaranteed purely vegetable) will cure any case of blood poison. Books on the disease and its treatment, mailed free by Swift Specific Co., Atlanta, Ga.

with Mrs. Allie Haselden. The following officers were elected for the year: Mrs. Mota Robinson, Pres.; Mrs. Jeff Dunn, Secy., and Miss Ella Dunn, Treas.

Joe C. Bryant died at his home in Bryansville, Feb. 25th, of a complication of diseases. His funeral was preached at the residence on Sunday morning, by his pastor Rev. W. L. Clark, and his remains were buried in the family burying ground near his home, as he had requested it some time before his death. Mr. Bryant was 57 years of age, and had been a member of the Methodist church for thirty years. He was a man of noble character, and beloved by all that knew him. He leaves a wife and one son to mourn his loss, but they have the sympathy of this entire community.

There are three little things which do more work than any other three little things created—they are the ant, the bee and DeWitt's Little Early Risers, the last being the famous little pills for stomach and liver troubles. Stormes' Drug Store. 1m

HUBBLE.

Miss Katie White has been very ill for several days, and there is but little hope; entertained by her friends of her recovery.

Miss Emma Johnson commenced a subscription school Monday at Bright school-house. The opening was very flattering for an interesting school.

Mrs. Wm. W. Bland has gone into the commission business, having received her samples today from a Cincinnati firm. She will go on the road at once to take orders.

The telephone poles are being rapidly located between Stanford and this place, and by the time this item goes to press we will be in talking distance with the former.

Wm. T. Blackberry, who has been in Arizona, Kansas and Texas, for the last two years seeking for a gold mine, returned home the latter part of last week, bringing with him a large collection of specimens of animal, vegetable and mineral, which he has been exhibiting to the young people, and old ones too, greatly to their amusement.

James Holtzlow, who has been visiting his brother Frank for the past two months will leave Friday morning for his home at Balkow, Mo. Mr. and Mrs. Price Sutton, of McCreary, were here Sunday visiting Mrs. Samantha Alexander, the mother of the latter also Miss Bettie Alexander was with home folks Sunday. Miss Nellie Dillon and Mr. Wm. Mattingly were the guests of Miss Sallie McSmith Sunday.

Don't annoy others by your coughing, and risk your life by neglecting a cold. One minute Cough Cure cures coughs, colds, croup, grippe and all throat and lung troubles. Stormes' Drug Store. 1m

STONE.

Miss Willie Duncan began a select school at Scott's Fork last Monday.

T. L. Saunders bought of King-Temple a bunch of nice shoats at \$3.12 per hundred.

A good many plant beds have been sown in this section, and the farmers are preparing to put in a very large acreage of tobacco this year.

Miss Lizzie Tomlinson, who is teaching a flourishing school at Pleasant Hill, spent from Friday afternoon until Sunday with Miss Eliza Lusk.

Prices Lower than Ever.

Tailor made suits at \$12.50 to \$30. Satisfaction or no pay. You have paid \$12 for ready-made suits that were not as good as Wamaker and Brown's suits at \$3, and their suits at \$1.50 and \$1.00 are equal to other \$15 suits, being all-wool and beautiful in design and finish. The suits at \$12.50 and \$15 usually sell for \$18 and \$20, and their \$20 suit is the same of quality, and suits usually selling for \$35. A comparison of goods will prove that you will save some dollars by giving me your order.

M. D. HUGHES, Agent.

MT. HEBRON.

The fine weather the past few days is making the farmers leave their winter fires and hunt their farming utensils.

Mr. F. W. Montgomery and family and Earl Grew spent Sunday with Mr. W. D. Scott and family. Mr. Norman Grew and Miss Edna Scott spent Friday night with Miss Lena Rogers near your town.

Whooping cough is the most distressing malady; but its duration can be cut short by the use of One Minute Cough Cure, which is also the best known remedy for croup and all lung and bronchial troubles. Stormes' Drug Store. 1m

McCREARY.

Mrs. Mary E. Robinson, of Court House, Ohio, is the guest of Mrs. Mary Swope. Miss Susie Sandridge has returned from a visit to her mother at Shelby City. Misses Irene Raney and Mattie Sanders, of Stone, visited friends here Sunday. Mrs. L. Gailley has returned from a visit to Lexington.

W. H. Lackey, of your city, visited his sister, Mrs. D. Gailley Sunday. Mrs. Jack Turner who has been quite sick with pneumonia is reported better. A. D. Jones and R. Hendren, of Kirksville, were here Sunday.

On last Thursday Mr. James W. Naylor, aged 25, died at his home on Sugar Creek, after suffering ten days with pneumonia. He was buried in Lancaster Friday afternoon. Jim was a good boy and a favorite with all who knew him, always ready to help others in time of need and will be sadly missed by a host of friends in this vicinity. The family has the sympathy of the entire community.

To dip sheep has been familiar to all for years, but it has only been recently that the dipping of cattle has been heard of. It is time that experiments had been made at the experiment station in Texas, but it really was not considered seriously until last summer when experiments were made at Fort Worth, Tex., under the direction of Dr. V. C. A. Norgaard, a scientist of the Bureau of Animal Industry. It took many years to discover why produce the Texas, or splenic, fever among Northern cattle, while at the same time the Texas cattle, which were the cause of the introduction of the fever, were perfectly healthy. As time rolled on scientific men made investigations, until finally the theory of Dr. Corporal Carver of Philadelphia, that the tick common to Southern cattle, coming in contact with Northern cattle communicated the splenic fever to the satisfaction of the Bureau of Animal Industry, efforts to find means to eradicate this tick from Southern cattle, so that they can be shipped into north with impunity, have been made. It has been decided now that dipping Southern cattle in product of oil, which is a distillation from crude petroleum, obtained at the refineries, after the gasoline and kerosene have been distilled over, will kill the ticks successfully. Dr. Norgaard, in his address at the stock growers' convention held at Denver last week, said that the effects with this oil on the cattle were less severe than those observed in the experiment with other oil. He also added that it is the intention of the Department of Agriculture to resume the experiments this coming spring, as soon as it is possible to obtain tick cattle at either of the two dipping stations, now at the disposal of the government, and every effort will be made to do away with the slightly objectionable features that still remain. This is a question in which millions of dollars are involved, from the fact that if science can devise ways and means by which Southern cattle can be dipped successfully they can then be shipped North any month in the year, and the stock raisers and farmers in the Northern States will be supplied with stockers and feeders at comparatively moderate prices. Science has done much in the past to promote the cattle industry, and there is no reason why more can not be done along the same line.—Kansas City Times.

Not Always Understood.

A fact often overlooked, or not always understood, is that women suffer as much from distressing kidney and bladder troubles as the men. The womb is situated back of and very close to the bladder, and for that reason any distress, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort.

The error is easily made and may be easily avoided by setting urine aside for twenty-four hours; a sedentary or settling is evidence that your kidneys and bladder need doctoring. If you have pain or dull aching in the back, pass water too frequently, or scanty supply, with smarting or burning, these are also convincing proofs of kidney trouble. If you have doctored without benefit, try Dr. Kilmer's Swamp-Root, the great kidney remedy. The mild and extraordinary effect will surprise you. It stands the highest for its wonderful cures. If you take a medicine you should take the best. At drug stores fifty cents and one dollar.

You may have a sample bottle and pamphlet both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention THE CENTRAL RECORD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of the offer.

MOTHER! There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it, so assists nature in the change-taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but
